## **DETAILED ACTION**

### ***Election/Restriction***

1. Applicant's election without traverse of group I, claims 1-14 in the reply filed on August 12, 2004 is acknowledged.

### ***Information Disclosure Statement***

2. The Information Disclosure Statement, filed August 4, 2003, is acknowledged and has been considered.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 21, 23, and 24 are rejected under 35 U.S.C. 102(b) as being anticipated by Mitchell (U.S. Patent No. 3,721,458).

Mitchell discloses a stabilizer pad assembly comprising all elements as claimed, including a resilient pad having opposite ground engageable surfaces, means integral with and extending from the pad, forming with the pad a unitary pad assembly, and at least one elongated securing member that is releasably connectable between the pad, and support posts that extend from opposed sides of the pad "for releasable engagement" with slots in plate members, as functionally claimed. Note that it has been held that the recitation that an element is "adapted to" or "for" performing a function is not a positive limitation but only requires the ability to so

perform. It does not constitute a limitation in any patentable sense. See *In re Hutchison*, 69 USPQ 138.

***Allowable Subject Matter***

5. Claims 1-14 are allowed.
6. Claims 22, 25, and 26 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
